intelligent ultrasonic solutions

UFM3500

Automatic Ultrasonic Food Slicing Machine

- Cheersonic ultrasonic cutting achieve non friction, no pressure cutting mode
- It can cut sticky food such as creamy jam smooth and beautiful without sticking knife
- Automatic product positioning, omni-directional cutting according to the needs
- The cutting product can be automatically positioned and slitting according to the pre-entered parameters

Round Portion Mode (Optional)

Slice Mode (Optional)

The device has two cutting modes, including round portion mode and slice mode. The working speed and angle parameters are adjustable.

It can be used for the round, rectangular and other shapes of bread, cakes, pizza and other baked goods for a variety shapes cutting function.

UFM3500 Automatic Ultrasonic Food Slicing Machine

UFM3500 Cheersonic Automatic Ultrasonic Food Slicing Machine is a fully automatic high-performance food cutting equipment with multi-axis standard control system. It can be used for round portion mode and slice mode. Compared with ordinary cutting machines, it could be reduced the amount of food scrap, increased productivity, enhanced the food surface aesthetics greatly. It is a strong promoter to join the ultrasonic in the brand competition.

- User Interface
- Ultrasonic Parameters
- Button Area
- Multi-axis High – Precision Sports Device
- Ultrasonic Cutting Blade
- Automatic safety door

Type	UFM3500
Working Voltage	220V
Rated Power	3.5Kw
Machine Size	2100x650x1800mm
Total Weight	350kg
Effective Cutting Height	60mm /80mm (Optional)
Single Cut Width	250mm / 300mm

Control system	Independent development of multi-axis control system
Multi-axis displacement driving device	Servo motor - precise positioning, multi-cutting position optional
Automatic up and down drive	Servo motor - multi-stage variable speed, adjustable cutting speed
Safety protection grating	Infrared sensor protection device to protect the safety of operators
Intelligent touch screen panel	Friendly interpersonal interface, automatic mode, jog mode optional, all kinds of cutting options, the system comes with password system protection
Laser positioning	Fully automatic product positioning
Remote maintenance	Remote access capability
Ultrasonic cutting blade	Titanium alloy material, more than 15 type blades options to suit your application, FDA certification
Ultrasonic generator	Automatic tracking, real-time tracking the frequency of ultrasonic cutting blade
